I suggest the Kristine could assemble a draft timeline for the workgroup, get comments via email or a conf call, then submit that for manager's to review on the week of the 20th or 27th at the latest.

Kristine, does this seem reasonable?

Keith

Thanks, Kristine and Karen--and all who are working on this important effort. One thing that strikes me is the timing of the work. I think it will be important to meet again much sooner than the 28th in order to provide the managers with material they can use for further conversations on the next steps forward. I hope there is a way to push this farther and faster. Thanks again for the good efforts.

Karen - Thank again for setting up this meeting. I think that it was very productive and we got a long way in the process! I'll work on this next week and send something out to the group to contemplate. I hope you have a wonderful trip (and don't think about us!). See you when you get back.

All - Let me know if there is anything you would like for me to add/consider/contemplate in adding to this by early next week. I suggest that we get back together the last week of Nov (when Karen returns) to finalize something to submit to the Managers. I suggest the afternoon of 11/28 since I'll already be in Portland for a meeting in the morning. Let me know if that works for you.

Meeting notes from 10/8 Sampling
Methodology Workgroup

Thanks to all for a very collegial and productive discussion yesterday!
Special thanks to Nicole and crew for providing us with a robust
sampling plan to fuel our discussion, and to Kristine for volunteering
to take the lead on this effort during my absence.

As you'll see from the notes, we covered a lot of ground but also have a
bit of work to do. Since we did not talk about a timetable at the
meeting, I suggest that Kristine propose a schedule and communicate with
the group about next steps.

Thanks - see you at the end of the month.

Karen
